

22-02-2017

J.nr. 2017-29-7105-00344

### Approval of the product *Toucan ECA*

Referring to the application of February 22<sup>th</sup> 2017, the product

#### **Toucan ECA**

is hereby approved for use as a disinfectant for food industries, in dairy herds and on fishing vessels with storage of edible fish for more than 24 hours according to § 2 section 1 in the administrative order no. 134 of 11/02/2013 concerning approval of disinfectants, etc. in food industries etc.

It is noted that the approval was conditional on,

- The product is composed as disclosed in the company's letter of application
- The product is labeled in accordance with § 6 in the administrative order no. 134 of 11/02/2013 concerning the approval of disinfectants, etc. in some food industries etc. "The Danish Veterinary and Food Administration/Fødevarestyrelsen" followed by referenced file number above must be visible on label
- The product's composition, scope, use or equivalent are not to change without the Food Administration's written approval,
- The other regulations in this area are met.

The product can be used without a rinse after use. By this approval the Food Administration has only taken a position on that the food product does not impose a health risk. The Food Administration reserves the right at any time to revoke the approval if condition should give rise to it.
